## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 44-94 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Wyckoff #3,386,876. Wyckoff discloses the geogrid and method of making the geogrid as broadly recited, see in particular figures 9 and 10. Furthermore, as to the use of the geogrid in a particulate material, it is well known to provide reinforcing means such as geogrids in the ground or in particulate material to reinforce and strengthen an area of ground.

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
